STAR FEATURE · LOWER STRESS

Tone Check Turns Heated Drafts Into Calm Messages

Optional AI review flags hostile or heated wording before sending and suggests a calmer, more formal rewrite. You stay in full control of every word you send.

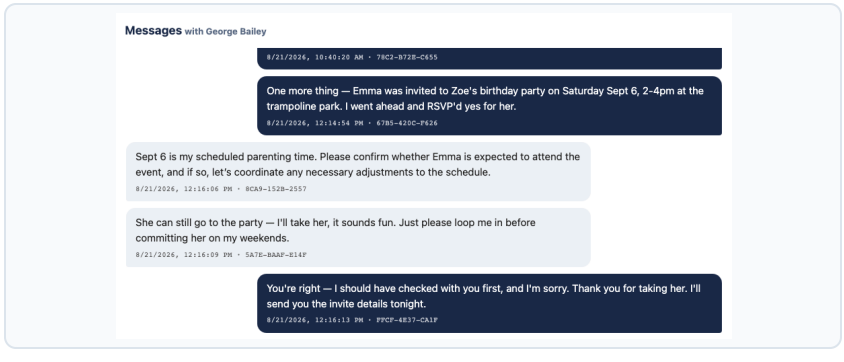

1. **Warning Flag:** Spots wording that may read as hostile to a judge.
2. **Calm Rewrite:** Suggests a clear, child-focused version of your message.
3. **Your Choice:** Tap *Use this & send*, *Let me edit it*, or *Send original anyway*.

PROVIDER ACCESS

Bring Your Counselor or Mediator In

Parents can give their counselor, mediator, attorney, or family resource staff access so everyone supporting the family works from the same information and communication is easier.

Simple Consent
A professional you work with gets read access once you sign a consent; neutral roles like mediators need both parents' signatures.

Always Transparent
The other parent always sees who has access, and either parent can revoke a consent they signed.

$9.99/mo or $99.99/yr

7-Day Free Trial

Only one parent has to pay.
One subscription covers both parents; the second parent is always free. This removes barriers — if one parent can't or won't pay, the family can still use it.

How We Compare (Published Prices):
- **ParentDocket:** $99.99 per family per year, second parent free.
- **OurFamilyWizard:** $99–$199 per parent per year, second parent pays separately.

Why I built ParentDocket: "After going through a rough divorce, I built the app I wish I'd had — at a price a family can actually afford. Our mission is simple: no family should go without a safe, documented way to co-parent because of cost." — **John Shoufler, Founder**
